

**Dear guest,**

it is a pleasure to welcome you at our restaurant today!

You are dining in the historical part of the east hotel, a former iron factory. Back in the 19th century coal was delivered at the casemates facing the "Simon-von-Utrecht-Straße" to fire the big melting ovens. The factory was in operation until it was closed down in the 1980s. It took several years of planning and construction in assistance of the american Designer Jordan Mozer to create the Hamburg location for nightlife and pleasure. You will find warm colors and organic styles all over the house which is famous for this specific and unique ambience. Spend an unforgettable night in the cozy east atmosphere and experience our seasonal cuisine made from premium products as well as fine sushi specialties.

Please do not hesitate to forward any wishes or suggestions to us. We hope you will enjoy your meal and have a pleasant stay at east restaurant.

Your east team
