PRESS RELEASE

–
COAST HAMBURG

coast by east – Seafood, Grill & Bar and coast enoteca in Hamburg

Hamburg, September 2019. Two concepts under one roof - *coast enoteca* entices even the most demanding wine aficionados while *coast by east* restaurant and bar fulfills the promise of mouthwatering delicacies.

A newbie in Hamburg, established as recently as 2018, quickly rose to fame and became the leading destination for all occasions. The location that's hard to beat, the venue has a stunning view towards Elbphilharmonie, a concert hall and Hamburg's signature landmark.

The *coast by east* restaurant celebrates the sophistication of Asian cuisine, while the *coast enoteca* is modeled after authentic Italian hospitality. Indoor and outdoor spaces offer the perfect spot for cosy dinner and corporate events alike. Lastly, the glorious building resembling the silhouette of soaring seagull, designed by Barcelona architects EMBT, is just as unique and complex inside as it is outside. All these intricacies make *coast by east* a feast for eyes, taste buds, and mind.

coast by east restaurant and bar

Guests can indulge in delectable Asian specialties, ranging from beef fillet to teriyaki Loup de Mer to crispy duck salad. Catch restaurant manager Serkan Akbulut, chef Jonas Straube or master chef Tell Wagner to find out about their seasonal recommendations.

On the other hand, bar manager Anita Rimpler will be happy to show the guest the mobile champagne bar or to tailor a cocktail to guest jices.

coast enoteca

coast enoteca, as the name suggests, offers an unrivalled selection of premium wine and champagne from the world's best vineries, however, there is more to it than meets the eye. Guests should sample a selection of Italian dishes, from sharing platters, seafood, pasta to dessert classics.

The cosy atmosphere is complemented by muted colour palette of the furnishings and wooden elements, as well as adjustable walls and ceiling for the optimum weather management.
