

The clouds – reach the sky from Hamburg's highest restaurant

clouds Heaven's Bar & Kitchen: Hamburg's elevated dining

Hamburg, June 2019. The *clouds* has been one of the signature members of east cosmos family since its grand opening in 2013. The restaurant offers panoramic views over Hamburg from 105 meters above ground, which makes it the highest restaurant in town. Urban vistas are breath-taking and provide a sweeping backdrop for any occasion.

The restaurant spreads over three floors of the Tanzenden Türme – the 'dancing towers' skyscraper over iconic Reeperbahn – comprising a steak restaurant, a vibrant bar, event areas as well as rooftop terrace aptly called 'heaven's nest'.

Visionaries Andreas Fraatz and Christoph Strenger noted the 'opportunity to develop such an exciting project' in the spectacular location was simply unmissable.

Drink and Dine

Chef extraordinaire Eric Kröber and master chef of east kitchen Tell Wagner joined forces to create an exciting and sophisticated menu that showcases virtuoso techniques and expert sourcing of prime meat cuts.

The *clouds* team pride themselves in impeccable service and make sure the dinner on 23rd floor is simply stellar. Some of the dishes are prepared directly by the table, adding a true personal touch to the dining experience.

The *clouds* ambience is enriched by oak tables and tanned leather to truly transport the guests to one of the best urban steak eatery in Germany. The furniture has been manufactured by Wagner company and complements the cosy vibe of the restaurant perfectly.

The *clouds* doubles as a bar, and while the bar team will gladly prepare one of the classic cocktails, the drink creations reach beyond the imagination. The Bar Manager Bastian Knülle will be delighted to create a bespoke cocktail or recommend a fine wine to pair with the occasion.

Gin Tasting Events

Gin has stood the test of time and until today, remains one of the most popular spirits. Gin & Tonic is a true favorite among gin novices and aficionados, which is why the *clouds* team developed gin tasting events to help gin enthusiasts understand the nuances of mixology. Over two hours, bar manager Bastian Knülle teaches how to make the perfect G&T and allows his students to sample on a range of gins and tonics to craft a perfectly balanced taste. Booking in advance recommended.

Events on 22nd floor

Nothing beats an event with a view! Book one of the four exclusive event spaces on 22nd floor and discover Hamburg from a new perspective.

The event spaces are versatile and offer a solution for any kind of event. Fully air conditioned rooms, foyer and roof terrace offer a stunning skyline view, as well as 70 inch LED screens, Barco Clickshare System and Bose Surround System. Signature cuisine of *clouds* is available for catering during the events.

Conference rates available upon request at events@clouds-hamburg.de

Heaven's Nest: highest open-air Bar in Hamburg

Being Hamburg's hotspot during Summer months, *Heaven's Nest* rooftop bar has it all – the sweeping view, Moët Champagne bar, comfortable sunbeds and DJ nights. Enjoy the perfect weather in the open-air lounge and experience night out on town like a true local.

The vibe of the bar is über-cool and urban, yet still cosy. Whether looking for a family celebration, sunbathing with best friends or a drink enjoyed in solitude, *Heaven's Nest* delivers. The kitchen team put together a bar menu that will undoubtedly launch you to cloud nine.

The east cosmos – a lifestyle universe

east Hotel is not the only property transforming hospitality and gastronomy in the past 15 years – the lifestyle and entertainment offer expanded over the years into many ventures outside of St. Pauli – hence the *east cosmos* was born.

east cosmos presents sushi restaurant *coast by east* and the *coast enoteca* in HafenCity, as well as *clouds - Heaven's Bar and Kitchen* with rooftop terrace *clouds - Heaven's Nest* on 24th floor of Tanzenden Türme – the dancing towers over Reeperbahn.

Nonetheless, *east cosmos* grew outside of Germany to Mallorca – in Port Adriano, the wining and dining offer is enriched by *coast by east Mallorca* and *Sansibar Wine* and *Sansibar Wine Shop* as well as nightclub *uppereast* with exquisite views over the yacht harbour and the Mediterranean.

The youngest member of the *east cosmos* is the *Störtebeker Elbphilharmonie* eatery and beer bar, spreading over three floors of Hamburg's landmark.

What all *east cosmos* properties have in common is the strong gastronomy concept combined with spectacular locations.
