

In the digital era not only technical capabilities have been advanced, also requirements regarding conferences and conventions have redeveloped. east hotel keeps pace with this pioneering trend and creates new opportunities to arrange meetings and workshops in a more dynamic and individual way through the symbiosis of ultramodern technical equipment and an open, creatively designed conception of space.

Barco ClickShare System

The east hotel not only breaks with traditional paradigms of convention models, also new paths are being struck within the field of communications. The east hotel is the first hotel in Hamburg to offer the new "Barco ClickShare" system, which enables to transfer presentations on the screen at the touch of a button.

Projectors

Furthermore the new HD-capable projectors with 6.500 Ansilumen by Panasonic are now a permanent feature of all rooms with the size of 65 sqm or more.

LED Flatscreens

In the rooms up to the size of 55 sqm, east hotel now provides LED flatscreen monitors with a screen diagonal of 203 cm.

Digitized sound and wireless data transfer

To simplify speaking the sound at the conference rooms has been completely revised and digitized. Also data is now being transferred wireless via USB.
